Optimal Foldover Plans for Two-Level Fractional Factorial ... We demonstrate that any foldover plan of a $2^{k \times p}$ fractional factorial design is equivalent to a core foldover plan consisting only of the p out of k factors. Furthermore, we prove that there are exactly $2^{k \times p}$ foldover plans that are equivalent to any core foldover plan of a $2^{k \times p}$ design and demonstrate how these foldover plans can be.
