Classifications in Brief: The Neer Classification for ... History. Proximal humerus fractures are the third most common fracture type in individuals older than 65 years, after distal radius and proximal femur fractures []. In 1970, Charles Neer described his four-segment classification system []. He believed the existing classifications were inadequate for research purposes, as they did not differentiate between injuries of varied severity nor did they. Types of Bone Fractures: Buckle Fracture, Stress ... - WebMD There are many types of fractures, but the main categories are displaced, non-displaced, open, and closed. Displaced and non-displaced fractures refer to the alignment of the fractured bone. Fracture Classification in ICD-10-CM - SCCMA-MCMS Fracture Classification in ICD-10-CM Fracture coding in ICD-10-CM requires documentation of site, laterality, type of fracture, whether it is displaced or nondisplaced, and the stage of healing (or encounter), which includes open fracture classification.

Fractures (Broken Bones) - OrthoInfo - AAOS Common types of fractures include: Stable fracture. The broken ends of the bone line up and are barely out of place. Open, compound fracture. The skin may be pierced by the bone or by a blow that breaks the skin at the time of the fracture. The bone may or may not be visible in the wound. Transverse fracture. Introduction: Fracture and Dislocation Classification ... The diaphyseal fracture classification has been made consistent for all bones. The diaphysis is defined as that part of the bone between the two end segments and is divided into three equal parts defining the location of the diaphyseal fracture. The fracture location within the diaphysis is a qualification as follows: Intertrochanteric fractures - Evans classification ... Type II: Fracture line extends downwards and outwards from the lesser trochanter (reversed obliquity/unstable). These fractures are unstable and have a tendency to drift medially. These fractures are unstable and have a tendency to drift medially.
